

July 27 1945

Mr M. Mc Elligott
2037 N. Campbell Ave.
Chicago 47 Ill.

Dear Mr Mc Elligott:

I am in receipt of your letter of July 11th in which you said you hoped to ship my new white uniforms about August 8th.

I am writing now to say we return to Newark August 8th, for a long home stand. I would appreciate it more than I can say if it would be at all possible to have the uniforms to start the series with. If the order cannot be speeded up, I will understand. However I would be really grateful if I could have them. The ones we have been using are in pretty bad shape. I wrote you we gave the good ones away, because they had shrunk so badly. I do hope the day will come when the white material will be pre-shrunk so they will not continue to shrink when they are cleaned.

I hope you have collected on the claim for the lost jacket. I did not receive an answer to my letter I wrote you saying the inspector had been here, and enclosing the forms he left to be signed. I hope you received them.

Could you offer me any suggestion about how we could go about trying to get government permission to get some bats. We used to buy them just anywhere, and as a result, we are having a terrible time to get bats. The stores where we used to pick them up just don't have any. I will appreciate very much any suggestion you might offer.

Very Truly Yours
